## We Want Your Help.

We desire to cover the entire news or happenings in the city and district, but in order to accomplish this we must have the cooperation of every one in the neighborhood. Should there be a birth, death or visitor at your home, or a member of the family goes on a holiday or any other matter of local interest such as social or business meetings, drop us the information. In this way we may overcome all obstacles and cover the news of the district in a satisfactory manner. Will you help us?

## Immigration

An increase over the April figure is shown in the immigration records for May, when 11,199 persons arrived in Canada as against 6,048 during the previous month. Of the number, 5,321 came via ocean ports and 5,878 from the United States. In May, 1921, 14,143 persons were admitted, of the 11,199 persons admitted in May last, 4,957 were adult males, 3,923 adult females and 2,319 children under 14 years. The destinations of immigrants by provinces were Ontario 4,685, Quebec, 1,775, Alberta, 1,592, Saskatchewan 1,106, British Columbia, and Yukon 1,050, Manitoba 1,040, Maritime provinces 288.

## A Concession To Home Investors

In offering to renew the five and a half per cent. Canadian government bonds maturing December 1st at the same rate of interest as is carried by the maturing bonds, and allowing a bonus of one month's interest, the minister of finance is making a material concession to the Canadian investor, as this rate is higher than was paid on the recent Canadian loan in New York. The high class of the security, which is the very best that can be offered in Canada, and the liberal rate of interest, should lead to large investments in these Dominion bonds. Attention is directed to the official advertisement giving details.

## That Big Indemnity Grab

The U.P.A. locals from one part of the province are seeking with indignation at the action of the indemnity grab made by their members during the recent emergency session of six days of last month. In many instances the locals are passing reasons urging the members to return the money to the government. In some districts there have been threats of invoking the recall if something like this is not done. The locals insist that they would not have objected to an indemnity of \$100, such as Premier Greenfield and the government first proposed. Some believe that the \$2,000 for the year—the regular indemnity—would have been quite enough. No person seems to be defending the \$200 vote—Albertian.

## Pure Seed

Members of the faculty of agriculture of the university of Alberta and officials of the department of agriculture are out inspecting the fields of good grain that are competing to come into the pure seed class. There are some two hundred men in the crop improvement association as well as the members of the Canadian Seed Growers association whose crops have to be carefully inspected before being graded into the class of pure seed. A real effort is being made both by the farmers and the department to establish the business of growing pure seed and to this end the department of agriculture has taken over the building formerly occupied by the North West Rice mill company, and will receive the seed grain there, clean and grade and distribute it again. This is being handled mostly in sacks. Machinery is being installed as well for this purpose. The same building provides a home for the poultry and egg marketing service as carried on by the provincial government. Here they are receiving, candling and distributing the eggs.

## THE SHOOTING SEASON

The open season for the shooting of ducks, geese, plover and snipe commences on the first of September, and no doubt, preparations for this campaign are well in hand with many of our sportsmen. There is no limit to the number of geese of any variety that one may take, as they are considered very worth to look after themselves. The ducks are different

and the law allows an individual to shoot as many as thirty a day, and two hundred in a season. Most of the varieties of ducks are becoming less plentiful each season, and the regulations at the present time are that this year they will be fewer than normally. Many reasons are advanced for this scarcity, and the probability is that every one of them have their bearing to a lesser or greater degree on their diminishing numbers.

The alarming increase in the number of crows that spend the summer here is not doing it any harm, but in the case of the duck population. During the recent cycle of dry years, the sloughs have nearly all dried up, making it possible to cut the hay where it was too wet before. These marsh lands were the breeding places of most of the ducks, while on the uplands, away from rain water, the mallards made their nests. The growth of grass on the prairie has been very scant, and this was cropped short by the stock. For this reason many of the mallards' nests could not be sufficiently covered to conceal them from the keen eyes of the crows. Reports have been received that every duck's nest on certain farms has been robbed, not only once, but every attempt that the ducks had made to hide their nests had been in vain. After one or two failures the birds would no doubt give up, with the result that very few young have been raised.

## ARE YOU SMILING?

In a store the other day up in a corner intended only for those who would work there was the sign—"Are you smiling?"

Now that's a very simple little question and there are those who may think it a very silly little one.

But try it out in a practical way for yourself—just start in and smile—physically—a decent respectful smile. Good! Did you note the effect it had on your mind? It made things round you look more interesting—put a cheerful aspect on them—made you want to do something or like something.

Just try it when you're tired or even when you're cross. Sort of make things look different. "They say when a baby smiles it's got a pain in its stomach. If so, then nature supplies the smile before the baby knows enough to supply it itself to counteract the pain."

The owner of that store when he put up the sign had in mind gaining efficiency. Just try smiling at your work and see how much easier it can be done. It's an unfortunate thing to have a job you can't smile in the doing of it. And it's an easier job when you do smile at it. Are you smiling?

## A MAN'S JOB

A man's job is his best friend, it clothes and feeds his wife and children, pays the rent, and supplies them with the wherewithal to develop and become cultivated. The least a man can do to return is to smile. It's a little grain that thrives on love. It will one day flower into fruit while for him and his to enjoy. If you ask any successful man, he will tell you that first and foremost it is because he likes his work; indeed he loves it. His whole heart and soul is wrapped up in it. His physical and mental energies are focused on it. He walks his work; he is entirely inseparable from his work and that is the way every man worth his salt ought to be if he wants to make of his work what it should be, and make of himself what he wants to be.

## HAVEN'T GOT TIME

Opportunity tapped at the door. With a chance for the brother within. He rapped till his fingers were sore. And muttered, "Come, let me in; Here is something I know you can do; Here's a hill I know you can climb; But the brother inside very quickly replied,

"Oh follow! I haven't got time." Opportunity wandered along in search of a man who would rise. He said to the indolent throng: "Here's a chance for the fellow who

But each of them said with a smile: "I wish I could do it, but I'm busy today. Very busy today, and I'm sorry to say. Or all the excuses there are, by which this old world is accursed. This 'haven't got time' is by far, the poorest, the feeblest, the worst. A diversion it is, and a snare; If the habit is yours, you should shake it. For if you want to do what is offered to you, You'll find time to do it or make it.

"What are the three words in the English language most used?" "Correct!"

## Hay - Fever

ASTHMA, SUMMER COLDS. You don't need a month's treatment to prove the worth of RAZ-MAH! RELIEF IS IMMEDIATE. It restores normal breathing, stops mucus gatherings in nasal and bronchial passages, assures long nights of quiet sleep. \$1.00 a box, free trial to Tempeston, Toronto. SOLD BY NORTHERN DRUG CO.

## SO MANY PEOPLE ARE NERVOUS

## "Fruit-a-lives" the Greatest of all Nerve Remedies

## This Fruit Medicine Restores Health

The increase in the number of persons suffering from Nervousness is world-wide; due, in a measure, to the reaction following the war. Sleeplessness, Headaches, Mental Depression, Rheumatism, Nervous Dyspepsia, Bad Heart Action, are the results of a disturbed condition of the Nervous System.

The nerves and the blood are so intimately, so vitally, connected that the condition of one is bound to affect the condition of the other. If the blood is laden with impurities, it is impossible to have strong, steady nerves.

The first essential in treating nervous trouble is to purify and enrich the blood. This "FRUIT-A-LIVES" will do.

"FRUIT-A-LIVES" stimulates the bowels, kidneys and skin and purifies the blood. "Fruit-a-lives" improves appetite and digestion and insures food being properly digested, thus enabling the blood to carry wholesome nourishment to build up the body, particularly the nerves.

Men and women who take "Fruit-a-lives" for some form of nervousness—because they cannot eat or sleep or work or enjoy life—say that this fruit medicine is simply marvellous in its action.

50c a box, 6 for \$2.50, trial size, 25c.

At dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

## THE HOMESTEADER

Buried up to the ears in debt.

Fighting the heat and cold and wet.

His chances worse than an even bet.

You'll find the homesteader.

Eyes burned out in the summer sun.

Skin like a beef steak underdone.

You'd think him 50—his 21—

But then—he's a homesteader.

Winter comes and his note is done.

(Summer was dry and nothing grew)

He sells his gun and a cow or two.

And hopes, does the homesteader.

Rough and broken his nerves lie.

Half of them covered with alkali;

But they mean that thing he couldn't buy.

A home—to the homesteader.

One part hero and three parts fool.

All of him bulldog grit as a rule;

He's slow to learn but he stays in school.

"Here's how! Mr. Homesteader!"

## A Good Word

Oh, everything is bully in this gay world of ours, and all my paths are fully bearded with flowers. It's true I have the meadows, the shingles and a wen, and hobnob, slunk or slunk have killed my old grey hen; but illness or rovers can't make me sprinkle tears, or hand out vulgar curses that might offend your ears. Cold winds hissing round me, the sun is bright and blue, and spring is all around us, and balmy winds come through. The day is bright and smiling, and my man's a swine who stands around revelling a word to good and fine. It's true my teeth are aching, and certain joints are sore, where rheumatism is making itself a beastly bore; it's true my spotted heifer has lost and mottled disfigurement, but, oh, that second eyeph, that fragrant vernal breeze! It comes from lands of spices from islands in the sea, and in a brace of trills, it brings relief to me! This good old world we dwell in, in which we play our game, and paw around and yell in, is all the blue prints claim. Sometimes the skies are cloudy, and winds chant and lament, sometimes the days are drowsy, and look like fourteen cents, but take things altogether, the world is bright and fair, and much I question whether it's equalled anywhere. —Walt Mason.

## A PRESCRIPTION

If you are poor—work. If you are rich—continue to work. If you are burdened with seemingly unfair responsibilities—work. If you are happy—keep right on working. Idleness grows form for doubts and fears. Disappointments come—work. It sorrows overwhelm you and loved ones seem not true—work. If health is threatened—work. When faith falters and reason fails—just work.

**Zam-Buk**

The Wonderful herbal balm for Rheumatism and all kinds of aches and pains. 50c all dealers.

## HIS UMP'S WAS WRONG

A play came up in the third inning in the game between North Battleford and Unity on Friday that is seldom seen, and therefore, Jack Hunter the Saskatoon umpire, could not be blamed for calling it wrong.

The play came when "Chief" Johnson started to steal home. The catcher noticed the intention when the ball was being delivered by the pitcher, and crossing the plate touched the runner who was called out by the umpire.

The rules distinctly state that in such a case the decision should have been that the runner be sent back to third and the batter given first base as he had been interfered with by the catcher—MacKlin's Times.

## ONE OF A BIG BUNCH

An editor, going away for a vacation, left his paper in charge of a minister. During the minister's stay in his sanctum the following letter came from a country subscriber:

You know I—well I paid my subscription to your paper the last time I was in town. If I got any more such letters from you as I received last week I want to town and mail it—out of you!

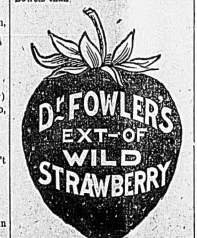

The minister answered:

I have been trying to mail that thing out of the editor for ten years past; and if you really come to town and mail it out of him, then, in dear sir, I have twenty members of my church I will also get you to operate on.

All of which goes to show that the printer averages up pretty well with the elect.

## You Cannot Use Anything Better FOR

Diarrhoea, Dysentery, Colic, Pains and Cramps, Stomach, Cholera, Cholera Infantum, Cholera Morsus, Summer Complaint and all Looseness of the Bowels then

Miss Kathleen Twiney, Downsview, Ont., writes: "We always keep a bottle of Dr. Fowler's Extract of Wild Strawberry on hand, and have always found it to be invaluable in all cases of cholera and diarrhoea." Last fall my mother had a very severe attack of cholera, and after she had taken four or five doses of this medicine she was completely relieved; ordinarily, however, one dose is sufficient. We cannot praise this remedy too highly for what it has done for us." Be sure and get the original "D Fowler's" when you buy. Price 50c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

## WIMMIN AGIN

"Wimmin is the cause of the high cost of paper," announced the rag picker to his friend.

"Yes?"

"Yep. Times ain't like they used to be. In them days a woman would throw away a dress or two and it would mean five or six pounds of rag for paper. Now jays they throw away a couple an' it weighs about three ounces."

THE TIMES IS EQUIPPED TO DO YOUR PRINTING

## The Value of Advertising...

The action brought by a retail grocer against the daily newspaper of a town in the Western States, for failure to print his advertisement, alleging loss of sales to the extent of \$1,000, is indicative of the value he places on advertising as a means of stimulating business.

In his statement of complaint he declares that he does depend very largely on advertising for business and on account of the non-appearance of his advertisement his sales were \$500 less than they would have been had the advertisement appeared. He asserts that on the Saturday preceding, and on which day a similar advertisement appeared, the sales made by the plaintiff amounted to \$650, and that while on the following Saturday, the day on which the advertisement was not run in the paper, although furnished and requested to be run by the plaintiff, the sales were \$350. On this day business was generally better, due to Labor Day following on Monday, and on account of the failure to insert the advertisement, the plaintiff claims he was damaged in the sum of \$1,000.

The outcome of the suit is not yet known, but it is interesting to note the definite turnover that this merchant credits as directly due to his advertising.

The use of advertising space as a means of stimulating sales and keeping the name of a merchant before the public cannot be underestimated, and when coupled with display of the proper sort and effective selling talks, is always productive of results.

## ADVERTISE IN The Wetaskiwin Times

## To Holders of Five Year 5 1/2 per cent Canada's Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

## CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5 1/2 per cent interest, payable half yearly, of either of the following classes:—

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1st interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,  
Minister of Finance.

Dated at Ottawa, 8th August, 1922.

## NEW NORWAY

Now that the summer vacation is drawing to a close, the thousands of the young people in New Norway and several of the surrounding school districts are turned in pleasant anticipations towards the school fair which is to take place on September 2.

At a meeting of the school fair association in New Norway on Saturday August 19, various committees to aid in the successful conduct of the fair were appointed. Messrs. Neven and Messrs. Neven, Mrs. J. P. Ross and Mr. L. Hutchinson of Dahmelt, Messrs. Poutanen and George of Verdun, Mr. J. Horroth of Dowling, Mrs. Hamby and Mrs. Tate of Silver Creek and Mr. Deller of Hoover, were appointed to collect funds for the fair in their respective districts, the method of collection being optional.

With regard to the arrangement of the various exhibits at the fair, it was decided that Messrs. Borseth and Hutchinson should be in charge of the live stock, Ole Olstad and M. Shaw, of the grounds and pens; Messrs. Poutanen and Yancey of the grains and vegetables; Mrs. E. B. Smith and Mrs. D. D. Campbell of the fancy work, cooking, etc.; while Miss Johnson, Mrs. J. P. Ross, Mrs. Poutanen and Mrs. D. D. Campbell of the Verden school should take care of the school exhibits. The erection of tables will be left in the capable hands of Messrs. T. Levang and Eli Malen.

The ladies of the New Norway U.P. W.A. will add to the attraction of the fair by the operation of a booth on the grounds.

A final meeting of the school fair association will be held in New Norway on August 26th at 2 p.m. An enthusiastic gathering of all members of committees and of the school see-relatives from the various districts is expected. The association tenders a most cordial invitation to all to be present at the school fair.

## SOUTH PIGEON LAKE

Mr. and Mrs. E. A. Holbrook spent the week end at their cottage.

A very jolly bonfire was enjoyed by the campers, given by Mrs. Holbrook and Mrs. Walker. The beach edgewater was a howling success, Mr. P. Johnson taking the "cake."

"Better roads" is the cry of all the campers. They only wish that those responsible for the upkeep of the road would sit in the back seat of a "Tin Lizzie" and have the extreme pleasure of having their "final column kick their heels."

Mr. Leroy of Edmonton, and Miss B. Holbrook arrived at the lake to spend a few weeks.

Mrs. H. C. R. Walker and family returned from the lake Sunday after a very pleasant holiday of five weeks.

Mr. and Mrs. C. B. Compton and family have returned home.

W. Gibson is spending a few days with his family at the lake. He is the father of J. H. Walker, E. Mermer, A. E. Mugs and W. S. English have returned to Wetaskiwin.

Many of the campers are now coming out to the lake for the week-end. The storm of Saturday night being down the diving platform, but A. A. Ellis says he is going to build a higher one next year.

What about that meeting in Wetaskiwin regarding a good well for next season?

Mrs. Miller gave a most enjoyable bonfire. "The campers stood on the burning sand, cutting peanuts out of their hands, and as they stood, behold what came, something called by the sweetest name—candy!"

Keep out of the Park! "Three bears were seen upon a tree, far from the hand of you and me." "Wood!" said the mother, behold there's a stranger, let's beat it to the park before we're in danger!"

**FIFTY MILLION POUNDS FOR BRITISH RELIEF**

London, Aug. 22.—The government and the municipalities between them have directly found \$50,000,000 for relief work. Minister of Labor T. J. Macdonald told a deputation of laborites who reiterated the accusation that the department lacked practical sympathy towards unemployment.

This sum is in addition to the relief accruing from the operation of unemployment insurance.

The minister also pointed out that credits totalling \$41,500,000 had been allocated to relieve unemployment.

The Birmingham unemployed army who hiked to London to appeal to the minister of labor declared that they were much satisfied with their interview and now propose to interview the premier. The premier is resting himself in his beloved Cricketh, although incidentally he seemed to be very much satisfied with the attention of press photographers. It seems unlikely that he will return to London to see the hikers.

The present attitude of the ministry is that it has done all that can be expected in the way of direct monetary relief for unemployment and agrees with many critics that giving doles or creating work artificially makes no real cure.

A considerable number of Wetaskiwin and district people went to Edmonton last week to see the circus. There seems to be a great fascination about trained wild animals, grotesque and unusual people, and the gaudy trappings of the circus which is as irresistible today, as it was forty years ago, and yet the majority of us consider the idleness and pleasures of that period hopelessly old-fashioned and out of date.

## PLEASANT PRAIRIE

In announcing the results of the Grade VIII, departmental examinations, we are pleased to note the names of Mora Gertrude Morris, Daryl Alexander Miller, and August Walter Forth, all of Pleasant Prairie school, as having been successful in passing. The latter two having been promoted from Grade VI, to Grade VIII, but a year ago. Much credit must be due their teacher Miss L. R. Hill, in having so zealously worked to secure the results above noted, the first time in the twenty years of history of Pleasant Prairie school district.

## LEWISVILLE

The harvest is in full swing here, the showers have hindered the work but still it is well under way.

We are pleased to note that all those who took the Eighth grade examinations in the Roselawn school were successful, viz. Miss Darlene Pollock, Miss Wilhelmina Plahn and LeRoy Greiner. This is a credit to pupils, teacher and parents alike. We regret to hear that Miss Sreenen has resigned. We are informed that she will be succeeded by Miss Valburga Greiner who comes well recommended.

Mr. Geo. Brunner of Perinath, is visiting with Mr. H. S. Jones.

Mr. Howard Stowell attended the fair in Wetaskiwin and purchased a pure bred Lincoln ram to head his flock. Mr. Stowell believes in the best.

Mr. and Mrs. Frank Manser and daughter Sunday-Ed in New Norway.

Miss Georgia Brunner and Mr. C. H. Hatz of Perinath were guests at the home of C. O. Wieg, Sunday.

Mr. and Mrs. C. Schmitt, Miss Hutchinson, Miss Logan, Mr. Greiner, Mr. and Mrs. Dussard, Mr. T. Latimer, Mr. and Mrs. McKenna, Mr. and Mrs. Jas. Schmitz and family, Mr. Volkmann, Mr. and Mrs. Nevin, were Wetaskiwin visitors during the week.

Mr. Schindeler, the cream man, was a day late this week owing to the wet weather. He reports a cream very scarce and yet the price is dropping. Can some enlightened individual explain the reason for this.

## HOW THE CIGARETTE INJURES THE HEALTH

The following essay, written by Myrtle Johnson, of Grade VI, Cigarette smoking was first introduced into Europe by Sir Walter Raleigh in 1559.

Young men are using tobacco in its most harmful form, the cigarette. It is not only harmful to the body, but the cigarette has a specially treated paper which is harmful. Men think that because the smoke is light it will not hurt them. When they inhale the smoke they get full effect of the poisonous nicotine. Many boys think it will not hurt them, but if the result showed up right away, they would not be so many smokers. It affects the tender parts of the body, especially the throat and lungs. It is often the cause of bronchitis, consumption and pneumonia. It causes uneasiness, nerves, and an intermittent pulse. Some men lose their weight on account of it. It dulls the brain and saps its user for the cares and responsibilities of life, and in some cases even causes insanity. It is a great irritant. It takes away the strength and makes one its slave. It spoils the voice and mars the appearance. Smoking makes the heart beat high and when it does this the victim starts to smoke again to soothe his heart. The result is that the heart becomes weaker and weaker. Many boys leave school on account of it and sometimes suicide is even committed on account of it. It also causes indigestion.

Smoking is increasing the drink habit. Many children have to go without proper food and clothing because their fathers spend their money in smoke and drink. In large cities it is hard for boys who smoke to get employment. Government schools in the United States prohibit smoking altogether. Many boys want to go to these schools but they cannot because they smoke.

Many men try to overcome this unhealthy habit but very few ever come to it. The best advice is "Never begin and you will never have to stop."

The tour of Alberta and the west planned by the American efforts for the coming week, has been cancelled owing to railway strike conditions in the States.

## Railway News

**Vancouver.**—When here recently Mr. Grant Hall, Vice-President of C. P. R., said his trip was simply the nature of an ordinary inspection tour and that the company had no underlings in mind connected with the trip. The new plan work will proceed as soon as possible.

As far as he could judge from his trip through the prairies and from reports received, there would be a big crop this year, and the company was considering its usual preparations to handle its share of the business expeditiously.

Asked if the big harvest and readjustment of freight rates would mean that this company would carry larger quantities of grain here this fall, Mr. Hall replied that it was a matter over which the Canadian Pacific had no control.

"It all rests with the owner of the grain," he said. "We are prepared to haul it either East or West, just as he directs."

Burner, periodically revises the story that the Canadian Pacific is about to develop its mountain lines in British Columbia. In regard to this Mr. Hall stated, as he has on several occasions, that the company is still conducting experiments with a view to some later date of operation, but that a policy in regard to the proposed electrification. The impression he gave was that if the plan is approved by the board of directors and the company is ready, it will proceed with the work. In any event this is liable to be a considerable time distant.

The vice-president was accompanied through the British Columbia division by Mr. F. W. Peters, general superintendent. He was met on arrival here by leading officials of the company and several personal friends.

**Assiniboia, Alberta.**—A further programme of improvement of lines of the Canadian Pacific in the west was announced by D. C. Coleman, vice-president in charge of Western lines, who is on his way west.

The largest item on the list was the replacing with one hundred pound steel of the double track between Ignace and Keokau.

A considerable number of bridges will be replaced with more permanent structures.

With respect to work on new branch lines it was announced that the existing gap on the Weyburn-Lebberidge will be closed; the line from Russell north will be completed; the first fifty miles of the Langdon northern line will be fully equipped for traffic; and the grading will be continued on the branch line from Central east. In this connection, Mr. Coleman said: "We had hoped to announce a larger programme of branch line construction but until the effect of the freight rate reductions just determined on the revenues of the railway companies can be accurately determined, it is obvious that an anxious policy is out of the question."

**Port Hope.**—The C. P. R. Port Hope bridge is fifteen hundred feet long. It is an interesting question how long it will require to paint it and how much paint will be used on the work. There are at present in the shop of the bridge painters small picks and hammers removing all the corroded parts after which it is brushed down with wire brushes. A graphite paint is used and it comes all ready prepared for the work. The wages of the men for this job will exceed two thousand five hundred dollars, which gives some idea what the painting account for the C. P. R. will amount to each year. There are two cars which provide eating and sleeping quarters for the men. It is just seven years ago that this men's car was given a liberal coat of paint.

**Montreal.**—Mr. Alfred Price, General Manager Eastern Lines, Canadian Pacific Railway, for forty years, who has relinquished his duties with the railway for an indefinite period, left Montreal on the C. P. S. "Montrose" recently, bound for England.

Mr. Price, who is accompanied by his daughters Misses Laura and Grace Price, will spend some time at Torquay, Devonshire, England, where it is hoped Mr. Price's health will be restored.

Several of Mr. Price's friends went aboard the "Montrose" to see him off. Amongst the Canadian Pacific officials present were: A. D. MacTier, Vice-President; James Manion, Assistant Vice-President; John J. Scully, General Manager Eastern Lines; W. G. Annable; W. G. Galt; Arthur Allan; George H. Ham; John Leslie, C. P. R. Comptroller, who was accompanied by Mrs. Leslie and Miss Leslie. There were several other friends and well-wishers present. Souvenirs presented to Mr. Price included a pair of binocular glasses.

Mr. Price's cabin was lavishly decorated with flowers by his friends.

## MINNEHICK

Minnehick, Aug. 21.—Heavy rains on Saturday night and Sunday. The roads are standing full of water now. Crops are looking good. Hay is short, as the rains came too late to help the wild hay. Stock are fat and in good condition.

F. Heighington had a sale last Monday and will leave this week for Canmore where he will make his home. Roy Gibbons and Herman Siegel expect to leave for Lacombe today, to work at the harvest.

E. Sabin made a trip out to Wetaskiwin for freight last week.

Little Kenneth Musclove is spending a few weeks at the Sabin home, while Mr. and Mrs. Brown are away to Nobleton for harvest.

W. J. Sisson was quite sick on Sunday.

Mr. Bryant was a passenger out on the stage today.

J. Bowman, the fire ranger, was called at Minnehick Friday.

The rains came in time to put the big fires out.

Rev. Ellis made a trip out to Haverhill on Saturday.

Mrs. Lashley, Miss McInnes, of Toronto, sisters of Mrs. J. L. Tipping, who have been visiting for the past month at Wolf River ranch, left last week for their home in Ontario.

Sunday school every Sunday in the Duck Lake school house.

Harry Ives and Dalton Tipping of Wolf River, were Sunday callers in Minnehick.

Cecil Adams is working for W. J. Sisson.

A. Bortnik is working for S. E. Nelson near Yeoford.

## Your Children Will Soon Be Going to School

Have you had them photographed yet during vacation? If not, make an appointment now for a sitting, you will never regret it because children soon grow up and change in looks and ways but a photograph made of your children now will always picture them as they are today.

## STRICTLY CASH BASIS

Positively No Credit will be Given to Anyone.

**\$2,000 in cash prizes**

Many people have discovered that 2 in 1 Shoe Polishes are good for other things than for shining shoes. For example:—

- 2 in 1 BLACK—Good for polishing motor cars; refinishing suit cases, kodaks, black gloves, rubbers, hats, etc.
- 2 in 1 WHITE—Good for cleaning hats, stains in white skirts, white kid gloves, auto tires, etc.
- 2 in 1 TAN PASTE—Good for polishing furniture, hardwood floors, etc.

For the Best List of New Uses for 2 in 1, We are Awarding Cash Prizes as Follows:  
1st award \$500.00—for the most acceptable list 20 Prizes of \$15.00—for the next twenty  
2nd " 300.00—for next best list 50 " 5.00—for the next fifty  
3rd " 200.00—for third best list 100 " 2.00—for the next fifty  
40 Prizes of 25.00—for the next ten

Try to find new uses for any of the 2 in 1 Shoe Polishes, either black, tan, oxblood, or brown paste, white cake or white liquid, black or tan combination. Write on one side of paper only. List uses according to colors. Awards will be made according to decision of special committee, and payment made on or before October 1st, 1922. All lists submitted to become our property. Address:

## WHERE ONE BLADE GREW

It is not always the best soil that yields the richest harvest. Much depends upon the man who cultivates the soil, and the measure of his success is the measure of his intelligent industry and thrift and ability to make the most of opportunity.

The successful farmer cultivates his money as carefully as he cultivates his land. He gets returns from his crops and he gets returns from his funds. This Bank in any part of the Dominion adds interest to the money saved by industrious farmers. Our nearest Branch is at your service.

## BANK OF MONTREAL

Established over 100 years

### SANITARY PRODUCTION OF MILK

(By Isabel M. Culler)

The sanitary production of strictly clean, healthful cow's milk from human consumption is a problem which every modern dairyman has to face with the rapid advancement which has been made in the past decade in relation to all marketed food products. Generally speaking, cow's milk is the most commonly used in Canada and, together with cream, furnishes from 16 to 20 per cent of the total food consumed by the average Canadian family. It is commonly said to be a perfect food for children and for adults is an excellent article of diet. (The average analysis of milk will demonstrate this: Water 71.7; Fat 3.6; Casein 3.2; Albumen 5.3; Sugar 4.5; Ash .71.)

Milk, more than any other food is susceptible to the growth of bacteria, though this can be easily prevented. If complete sanitation is regarded in connection with every process and sterilizing entering into the milk production. Few farms, if any, are normally produced by the milk before being drawn from the cow, but the coats and the surroundings of the animals, and indeed everything in the immediate vicinity, are usually so permeated with undesirable bacteria that their complete absence from the milk is itself, rarely, if ever, occurs.

Since the average dairy barn is apt to be little more than a breeding place for bacteria, the first condition in introducing the new order should be a common sense application of the ordinary rules of sanitation and a recognition of the necessity of fresh air and sunlight. Granted that the growing of cattle is not an ordinary thing with the farmer, the fact remains that it is highly desirable if clean milk is the aim of the milkster. Most modern dairies have the animals groomed an hour or so before milking, and no hay or roughage is fed until the milking process is over. Udders and flanks are kept free of hair and are wiped down with a damp cloth before milking begins.

Furthermore the milkster, and all things coming in contact with milk, must be sanitary. All utensils must be absolutely clean. This can be obtained by rinsing milk cans, pails, etc. first in clean cold water. (If hot water is used the heat coagulates the albumen and coats the sides of the can with a brush. The soda helps to dissolve any fats or grease. Scald all utensils with boiling water and let them dry in a glass cupboard outside in the sunshine. Dish towels and cloths should not be used, as these provide favorable breeding places for bacteria. Absolute personal cleanliness is essential with the milkster. In many modern dairies, milkers must bath and put on clean white uniforms, used especially for this purpose. The first streams of milk should be discarded as there are always a number of micro organisms inside the teats which are driven off with the first flow. When milking, the hands must be clean and can be so by milking with clean water. It is preferable to dry milking, though in many cases the dirty milkster will dip the finger tips into the milk or froth on the milk to moisten the teats. There is no excuse for this unclean practice.

Ventilation in the dairy barn is one of the most essential factors towards the maintenance of a healthy herd. The important thing is to supply fresh air for the stock. They need it just as they need a certain amount of food and water. Since oxygen is absolutely necessary to sustain life, it can be easily seen that a constant supply of fresh air is necessary, for if all the oxygen is used, there remains only the poisonous carbon dioxide to take its place which, if inhaled to any extent, is detrimental. If not allowed to continue, leads to a permanent unsanitary condition in the house and constant ill-health among the members of the family. The air becomes heavily charged with carbon dioxide and an unhealthy stale humidity that sketches itself out in fantastic designs on the window panes in winter, and lies in steamy wetness on the walls and furniture. Exactly the same conditions prevail, bringing equally serious consequences, in the ill-ventilated cow stable. Animals, steaming and exhaling poisonous vapors, and the atmosphere of saturation with the same destructive agents that make the dwelling an unsafe place to live in. So serious are these results that ill health in herds and general unsatisfactoriness in dairy operations is frequently due to this one cause, i.e., lack of adequate ventilation and supply of sunshine.

Star City, Saskatchewan, experienced a notable example of lack of judgment in barn construction recently when a resident farmer completed what he supposed to be the final tier in barn construction, in the shape of a general purpose barn. Seldom indeed it was, and complete in detail with one exception, his ventilating arrangements were inadequate for the number of stock to be accommodated in the barn. The first cold night, the stalls were filled and windows closed tight to "keep them warm." Steaming

off, as animals will when taken into warmer quarters, the barn and under-stead vent shafts were soon filled with vapor. The roof vents were too close by slatted and the steam freezing the small openings, soon closed them completely. (This applies more closely to the winter months). Then the barn was a dead air space and the stock were sealed up as effectively as if in a closed tank and were forced to breathe their own bad exhalations again and again until the last vestige of oxygen was exhausted. How long this lasted is a conjecture. In the morning, the owner, upon entering his warm, snug stable, found every animal dead in its stall, smothered for want of a little fresh air that a single square foot of space in a lower wall and at the roof could have afforded.

Instances in a greater or lesser degree of seriousness are frequently resulting from negligence or ignorance of this detail in barn construction. Either the King, the Luthersford or the cloth system is easily and cheaply installed in any barn. All of these systems have the advantage of being good. The preference and the pocketbook of the farmer need be the only deciding conditions. He can do the work himself and should see that the system once installed, works satisfactorily and is regulated daily to maintain an even supply of fresh air and a moderate current to the outlet to carry away the vapors and gases that contaminate milk and air and undermine the health of the animals. Some points to consider in this connection are noted below:

As there are no two barns exactly alike neither are any two ventilating problems the same. The aim is to take off the moisture and bad air and bring in fresh air without reducing the temperature of the barn too much in cold weather.

It must be a system that is dependable at all times of the year and any kind of weather. Fresh air prevents tuberculosis. "This can be seen by animals living mostly out of doors being of a stronger constitution and less liable to disease."

Big yielding dairy cows must be protected from the weather. Foul, moist air becomes a hot bed for all disease germs.

Sunshine is essential in the dairy barn. A number of large windows on the south and east sides should accomplish this and is an effective safeguard against bacteria growth. When the milk is brought in from the barn, it should be separated without delay as cream is removed more efficiently when the milk is warm. The cream should be put away to cool after separation. Covering of milk the proper temperature for which is 50 degrees F., at which point bacterial development is effectively retarded. Other points in connection with the care of milk or cream may be stated briefly: Warm cream should not be mixed with cold cream, this is apt to cause moulds to form. Old and new milk should not be mixed. Milk bottles should always be wiped off before emptying as the benefits from covering will be offset by pouring milk out of the bottle which has germs clinging around the top and cover. The refrigerator containing milk and cream should be kept sweet and well aired. (Pasteurization is sometimes employed to keep milk sweet, but it is sufficient care taken this should not be necessary.)

Excessive bacterial content frequently results in disease. The disease germs may get into milk from infected persons, unclean water, or similar ways. It is certain that the tubercle bacillus does sometimes enter in milk from tuberculous cows; and others or not persons become infected by it is hard to prove. There are many other possible sources of contagion and the development of the disease is so slow, that, by the time it

is recognized, a definite cause is hard to locate. Nevertheless, there is enough evidence that the disease may be carried in this way to render the use of milk from tuberculous cows unsafe for use.

Among the contagious diseases to which cows are not liable, but which may be spread by milk, the most common are scarlet and typhoid fever and diphtheria. Statistics show that milk is sometimes the cause of an epidemic of such contagious diseases and occasionally a serious outbreak may be traced to the milk from a single barn. Again, the bacteria causing these diseases may enter the milk from utensils or containers, or from persons handling the milk who have been exposed to the disease and who are themselves "unconscious carriers." For this reason only, pure water should be used about the kitchen or dairy, even for washing and rinsing and no person who has any disease or is caring for another person suffering from it, should be allowed around the cows or the milk house.

### Price of Wheat Will Drop Till It Reaches Feed Value

"How do I account for the fact that the price of wheat is going down?" said H. W. Wood to an Alberta reporter who asked him the question. "Why, what else could it do? It is doing just what I said it would do in my article in the Alberta in answer to Mrs. Dochman. It will continue to go down until it reaches the price it is worth for feed."

"Do you mean by that, that there is little or no demand for the wheat for feed?" asked the reporter. "No, I do not mean any such thing. There is just as much demand for wheat as ever. But the buyers have the buying strength and the producers have no selling strength. There may be some slight fluctuations as from time to time there is some demand for some particular purpose, as at present when the millers are buying up old wheat for flour. But as soon as they get what they want, the wheat will continue on the down grade until it reaches the value it is for stock food purposes. We cannot expect anything better under the present system."

"Then you still hope for the establishment of the wheat board at some future date?"

"Well, we will continue to work for it," Mr. Wood said in conclusion.

A Millot fellow says his girl is hard boiled. She ate rock candy, bricked ice cream, marble cake, and drinks hard water. She also uses cattle soap and wears gummat oxfords.

### BILIOUS ATTACKS DULL HEADACHES

When the liver becomes sluggish and inactive the bowels become coated, the stomach food and sick and dull bilious headaches result, which caused many days of dull headaches and miserable feelings.

Milburn's Lax-Liver Pills will clean the coated tongue and food stomach, and banish the disagreeable bilious headaches.

Mr. Charles Murray, 200 Hamilton Road, London, Ont., writes: "After trying a great many remedies for bilious attacks, which caused many days of dull headaches and miserable feelings, I tried Milburn's Lax-Liver Pills, and in a few days I was completely cured. I keep them on hand all the time, and find it beneficial to take an occasional dose, as they clear up the liver and make one feel like a new man."

Milburn's Lax-Liver Pills are 25c. a vital at all dealers, or mailed direct on receipt of order by The T. Milburn Co., Limited, Toronto, Ont.

### For Farm Improvements

Are you in need of financial assistance to buy seed or to increase your tillage, your stock or equipment? The progressive farmer will find this Bank ever ready to extend reasonable loans for legitimate purposes. Discuss your plans with our local manager. You will find him interested.

### Another PRICE Suggestion Biscuits, Buns and Rolls

**BISCUITS** What delight this word suggests. So tender they fairly melt in the mouth, and of such glorious flavor that the appetite is never satisfied. These are the kind of biscuits anyone can make with Dr. Price's Cream Baking Powder and these unusual recipes:

(All measurements for all materials are level.)

**BISCUITS**  
2 cups flour  
1 teaspoon salt  
1/2 cup water  
1/4 cup milk or half milk and half water

Sift together flour, baking powder and salt, add shortening and rub in very lightly; add milk slowly to make soft dough; roll or pat out on floured board to about one-half inch in thickness (biscuits as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

#### CINNAMON BUNS

2 1/2 cups flour  
1 teaspoon salt  
1/2 cup water  
1/4 cup milk or half milk and half water  
1 cup sugar  
1 teaspoon cinnamon  
4 tablespoons melted butter

Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients stirring well. Smooth. Knead lightly on floured board and roll out 1/2 inch thick. Cut with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

Sift 2 tablespoons of measured sugar with flour, salt and baking powder; rub shortening in lightly; add beaten egg to water and add slowly. Roll out 1/2 inch thick on floured board; brush with melted butter; sprinkle with sugar, cinnamon and raisins. Roll as for jelly roll; cut into 1 1/2 inch pieces; place with cut edges up on well-greased pan; sprinkle with a little sugar and cinnamon. Bake in moderate oven 30 to 35 minutes; remove from pan at once.

#### PARKER HOUSE ROLLS

4 cups flour  
1 teaspoon salt  
6 tablespoons Dr. Price's Baking Powder  
2 to 4 tablespoons shortening  
1 1/2 cups milk

Sift flour, salt and baking powder together. Add melted shortening to milk and add slowly to dry ingredients stirring well. Smooth. Knead lightly on floured board and roll out 1/2 inch thick. Cut with back of knife one side of center. Butter the small section and fold larger part well over the small. Place one inch apart in greased pan. Allow to stand 15 minutes in warm place. Brush each with melted butter and bake in moderate oven 15 to 20 minutes.

### Looking Backward

FROM THE TIMES' FILES

(August 12, 1912)

The rate of taxation is the same as last year, namely, 24 1/2 mills on the dollar for public school supporters and 25 mills for separate school supporters.

The basket ball team, composed of Alma Mattson, Mary Shantz, Helen Roist, Dolly Girling, Agnes Mattson and Vivian Lake, played a tie game with Ponoka, the score being 16-16.

A pathetic drowning accident happened at Buckle River on Sunday, when Walter Edlund, his brother, and two Johnson boys were playing along the bank. They all went in for a bath, and were carried down by the freshet. Walter lost his life.

The Wetaskiwin high school again came through with flying colors, at the recent departmental examinations. The results were announced last week, and if Wetaskiwin is not the banner school of the province, it is one of the foremost.

Markets—Wheat, No. 1 Northern, 84c; No. 2, 83c; 2B-3B; eggs 22c; butter, 18c; oats, 22c; 25c; hogs 6c to 7 1/2c; steers, 4 1/2 to 5 1/2c.

(August 15, 1912)

The council proclaimed August 23rd a civic holiday.

Geo. Williams, who broke into C. C. Bailey's jewelry store and stole a quantity of goods, was sentenced to two years at the Fort.

What is the matter with Wetaskiwin forming a company of the Alberta Mounted Rifles? It seems strange that the largest city on the C&E line has no contingent while smaller places like Red Deer, Leduc, etc., have their companies.

The Empire theatre is now under the management of A. J. Hatch. The rear of the theatre has been remodelled and the curtain raised.

It is estimated that between 3000 and 4000 people attended the Sels-Pinto circus during their two performances here.

Three automobiles driven by Claude Desrois, Billy Angus and "Dolly" Vernon, left on Saturday for Edmonton, where they will do a lively business during the fair.

D. S. Charlson, of the C.P.R. and department was in the city last week, and informed The Times that at the present time the C.P.R. is selling a lot of land through the Wetaskiwin district. The majority of the buyers are from the United States.

That Wetaskiwin has an excellent summer resort within a day's drive is evidenced by the large number of residents who have been spending their holidays on the shores of Pigeon and Battle Lakes.

R. J. Daly, publicity commissioner for Alberta, located at Winnipeg, was in Wetaskiwin Saturday, and expressed himself as being delighted with the advertising Wetaskiwin is doing and the way it was being done. Mr. Daly is a firm believer in the great future of Wetaskiwin and district and predicts that it will not be long before this district is very thickly settled.

New Industry For Alberta  
Announcement has been made by the officials of the Imperial Oil Co., of their plan to commence within the next few weeks an oil refinery at Calgary to cost \$2,500,000.

### TOWN TOPICS

Mrs. Dexter of Camrose, is visiting at the home of Mrs. Norberg.

Dr. Sweeney left a few days ago for the coast, where he will spend a couple of weeks vacation.

Mr. and Mrs. H. S. Bellville are spending their vacation at Edmonton, and other places in Central Alberta.

Fred Macfarlane has rented the residence of Mrs. Casey, Dufferin Street, and moved his office on Monday.

Mrs. Casey held an auction sale on Saturday last and will leave shortly for Powell River, B.C., where she will reside.

L. S. Scott has rented a residence in the western part of the city and will move his family therein in a few days.

The friends of George Baylis, who has been ill for several days, are glad to know that he is now convalescing nicely.

Mrs. F. T. Kirstein, who has been in the Wetaskiwin hospital for the past few weeks, has recovered sufficiently to be removed to her home.

Rev. and Mrs. W. H. Irwin and family, who have been holidaying at Gull Lake and Edmonton, returned home on Wednesday.

Mrs. Thos. Willows and son, John, are spending a few days in the city visiting friends. John has improved somewhat from his accident of a few years ago, but is yet almost helpless.

The ladies' aid society of the Swedish Mission church will meet at the home of Mrs. C. H. Swanson, on Tuesday, August 29th, at 3 p.m. Everybody is welcome.

C. H. Russell, who has been spending his holidays with relatives at Exeter, Ont., returned home on Wednesday. He took the C.P.R. boat on the Great Lakes, both going and returning home.

Miss Jean Macfarlane took part in the tennis tournament in Edmonton a few days ago, and won distinction by capturing the first prize in the ladies' singles.

The many friends of E. Barnett regret to hear that he underwent an operation at the Wetaskiwin hospital last week. He is convalescing nicely, and hopes to be around again in a few days.

John Olson, of Canoe, B.C., arrived in the city Tuesday to look after his business interests and to shake hands with his many friends. He says he likes B.C. very much, and he looks as if the climate agreed with him.

The editor and wife left on Wednesday for Vernon, B.C., to attend a convention of newspaper men from Alberta, British Columbia and the Yukon. They expect to return home on Sunday.

The U.F.A. baseball league series has been completed with Cherry Grove and Hurd Lake the two leading teams. These teams will play shortly for the U.F.A. baseball trophy and the winner will be considered the champion baseball team in the Wetaskiwin district.

H. D. Farris writes from Trenton, New Jersey, that he hopes to see his many Wetaskiwin friends this winter. He intends leaving about September 10th for a trip across the U.S., and plans to arrive at his home in Spokane about October. From there he will come to Alberta.

J. H. Thomas, one of the early settlers of the district, who left here about twelve years ago for the United States, and who is now located on a fruit ranch at Corning, Cal., was in the city renewing acquaintances this week. He was visiting at the home of Mr. and Mrs. Jas. Waring.

The Red Sox baseball team of Edmonton passed through the city on Tuesday en route for Taber where they will play the team representing that town in the finals for the provincial championship. On the team are Nick Campbell and Godfrey of last year's Wetaskiwin team.

Messrs. John Janse and Arnold Hiesinger of Fort Madison, Iowa, arrived in the city last week for the purpose of buying cattle. If they can get real bargains, and taking them across the line. Mr. Janse is a brother of E. C. Janse, and they are spending several days visiting Mr. and Mrs. Janse here.

Mr. and Mrs. Q. L. Carrell and family returned on Saturday after spending a couple of weeks visiting the former's brother, William, at Wainwright. Mrs. W. Carrell and family returned with them and will spend some time renewing the acquaintance of their friends here. Mr. Carrell will come over in a few days to spend his holidays.

Mr. and Mrs. J. W. Bailey left on Saturday last on an extended trip to the coast. They will visit different places, and Mr. Bailey will attend a number of the big exhibitions. His prize winning hogs are being exhibited at B.C. this year, and he hopes to continue winning a good share of the prize awards and incidentally the prize money. They will be away a month or six weeks.

A duck may lay a bigger egg than the helpful hen can lay, but when she's through she settles not, but simply walks away. And so we scorn the silent duck—but the helpful hen we prize. This is only another way to say that it pays to advertise.

### September Rod and Gun

The September issue of Rod and Gun in Canada, now on sale, is one which should please the sportsman and the outdoors man, for there are many attractive features, all of which will prove of interest. H. Mortimer Betten, whose work has achieved prominence through the columns of this magazine, has an absorbing story, entitled "The Terror of the Canyon," which is a swiftly moving tale with plenty of action and not a few thrilling scenes. There are other good stories also, while Donnycastle Dale's usual article is one of decided merit.

A special feature is the complete table of the seasons for all game, large and small, in each province of the dominion, and this information, being complete and yet compact, should be a boon to hunters and sportsmen everywhere. The guns and ammunition department easily upholds the splendid standards previously established and that is a guarantee of value and quality.

Robert Page Lincoln's fishing notes with queries and answers, contain much material of importance to the angler, and this popular department again offers something good for the selection of all those who pursue the fly fishing beauties. The kennel department, as well as the trap and photo departments, are of high merit, and there are many other articles and stories, too numerous to mention, that go to complete a magazine of quantity plus quality. Rod and Gun in Canada is published monthly by W. J. Taylor, Limited, at Woodstock, Ontario.

Order your counter check books from The Times, Prompt service; lowest prices.

J. W. Horie, of Wetaskiwin, attended both days of the fair, taking home a number of first prizes.—Dayland Press.
